

How to Order

The 2 Types of Tower

Standard Tower Kit
(with optional castor)

Side Access Tower Kit
(with optional castor)

Note that each Tower Kit includes all necessary Frames, Handrails, Braces, Base rails and Foot plates.

Outriggers and Wall Ties are also available, enabling further height to be gained than would otherwise be allowable on a free standing, single bay tower. This is ideal for confined spaces or for the economical gaining of extra height.

- 1) Select either the Standard Tower Kit or the Side Access Tower Kit. If unsure which style would best suit your job, ask the Hi-STAGE staff.
- 2) Look Down the Tower Dimensions Column for the Length x Width.
- 3) Look Across the Tower Dimensions Row for the Platform Height Required
- 4) Put this Tower Size and Price onto the Order sheet (page 10 of the catalogue)
- 5) The price of the Platforms is out to the right on the same page as the Tower. Add this to the Order sheet
- 6) Select the wheel type, if required, from the Accessories Price list (page 9). Add this to the Order Sheet
- 7) Add any further optional accessories on to the Order sheet
- 8) Add the prices together and calculate the sub-total. Add on the delivery fee. Add on the GST and print the Total Price
- 9) Fill in the the 3 identification Boxes across the top of the Order sheet.
- 10) Fax or email the Order Sheet in to Hi-STAGE:- Fax: 0359 626024 email: histage @ bigpond.c
